

TPMS Accessories

**Dill P/N 1025U**

Metal cradle designed to hold the Ford Banded Sensor or a clamp-in valve can be mounted in the tab hole where traditional valve holes are not accessible.

**Dill P/N 8910**

TPMS 3-way fishing tool is designed to keep the sensor in a safe and secure position while dismantling the tire.

**Dill P/N 930-SC**

4-pack of chrome sleeve and caps for TPMS snap-in on GM vehicles.

**Dill P/N 9153-A**

Adapter allows GM Snap-in type sensor to screw into 1025U cradle (sensor screws into the adapter eliminating the need for a replacement rubber valve).
