

Now Available 5900 Tire Pressure Gauge

Digital tire gauge accurately measures air pressure up to 100 psi.

Maintaining proper air pressure improves fuel efficiency, extends tire life, and improves vehicle handling.

It is recommended to check your tire pressure once a month, and this gauge makes it quick and is easy to read!

Automatically shuts off after 30 seconds of non-use to save battery life.

Easy-grip handle features innovative material to ensure gauge is held properly for the most accurate reading.
